

Master Data Management (MDM) Fast Start: Rapidly Stand Up or Add Additional Domains to an MDM Deployment

ABOUT PARADIGM

An award-winning end-to-end strategic solutions provider, Paradigm Technology is a leader in Digital Transformation, working for 25 years with the Fortune 500. We enable our clients in: Customer & Vendor Centricity, Data Governance, Real-time Analytics, and Cloud Adoption. Our Data Scientists help make sense of IoT and Big Data to predict and answer the hard questions to grow revenues, reduce costs and avoid risk. Paradigm's Business Transformation practice supports this through IT simplification, change management and robotic automation.

OVERVIEW

Paradigm Technology's Fast Start is for clients that are eager to begin quickly and leverage industry best practices. Paradigm provides accelerators and templates to speed time to use, focusing on quickly adding value for clients who understand their processes and need the flexibility provided by a Fast Start.

REALIZE RAPID SUCCESS WITH YOUR MDM SOLUTION IMPLEMENTATION

Installing the MDM Multidomain Edition hub, Relate 360, etc. has proven critical to full mastery of data in at least one key Data Domain for many clients. Based on our extensive MDM implementation expertise, we have developed a number of prebuilt domain and industry-specific accelerators designed to immediately address common business and technical requirements.

Our professional team will help you leverage the accelerator that is best suited for your business to quickly deploy a working MDM solution in your environment.

MDM FAST TRACK SOLUTION FOCUS & DELIVERABLES

- Identify and profile data from **up to three** data sources and **three** target systems
- Analyze and map your data sources to the accelerator model
- Support the initial data load into the MDM hub
- Implement a fully configured instance of the chosen MDM accelerator
- Provide full solution documentation including an installation runbook
- Host post-project review, solution demonstration, and extension discussion

WINSTON HSIAO - VP OF MASTER DATA MANAGEMENT

Winston has extensive experience delivering solutions around Master Data Management (MDM) and is a recognized leader in Enterprise Information Management (EIM).

He has served in a myriad of roles providing his expertise in both business and technology solutions: EIM strategy, critical requirements, data governance plans, and technical architecture and infrastructure required to address business needs.

LET'S GET STARTED!

We firmly believe in going the extra mile to ensure you get the best solution and an unmatched level of service. Whether you need to scale up, scale out, or both, we'll help you build the right infrastructure for your business needs.
